## Rain or Shine,

The station agent is on duty. On his exact communication of train orders depends thousands of lives, and millions of dollars in property, each day. In his haste he runs out in the rain or the snow hatless and unprotected. Then comes the sequel—bronchitis, or some other disease of the respiratory organs. The most effective remedy for bronchial or pulmonary disease is Doctor Pierce's Golden Medical Discovery. Almost all remedies prescribed for such diseases contain opium or some narcotic which soothes by stupefaction. "Golden Medical Discovery" contains neither narcotics nor alcohol. It stops coughs by curing their cause. It heals weak lungs, builds up wasted tissues, and promotes the health of every organ of the body.

"I am a railroad agent," writes E. J. Barclay, Osage County, Kansas, "and four years ago my work kept me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep-seated. Doctors failed to reach my case and advised me to try a higher air, but, fortunately for me, a friend advised me to try Dr. Pierce's medicine. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking four bottles my cough was entirely gone. I have found no necessity for seeking another climate."

Dr. Pierce's Pleasant Pellets regulate the stomach, liver and bowels.

### A BOY WITH WONDERFUL SIGHT.

The published accounts of the wonderful power possessed by Guy Fenley, the four-year-old son of Joel C. Fenley, a prominent stock man of Uvalde, Tex., in seeing underground streams and other things located far beneath the surface of the earth have attracted wide attention. Hundreds of letters have been received by the father of the boy and by citizens of that place and other towns in that section where the boy is known from persons whose interest has been aroused by the statements made by John N. Garner, member of the Texas House of Representatives from Uvalde, and by Judge W. Van Sickles, Attorney at Law, relating some of the work accomplished by this boy in locating underground supplies of water for stock men of that section. A number of men of science have also written to Mr. Garner and other people of Uvalde for further information. Handsome offers for the employment of the boy in locating buried treasures have been received, but none have been accepted, as Guy's father objects to his son being made the subject of that kind of notoriety.

This wonderful boy has just returned to his home, in Uvalde, from Brewster county, where he has been spending the last few weeks locating underground supplies of water for the stock men of that section. During his absence several propositions were made for him to visit the mineral region of west Texas, also for him to go to Mexico and locate hidden veins of gold and silver. The boy says that, while he can look far into the ground and see the different geological formations, he knows nothing about mineral veins, and would be unable to locate or classify them if he should see them. An effort is being made to induce him to take a course of training in mineralogy, in order that his services may be utilized in this direction.

He has also been urged to go to the new oil district of east Texas and locate the oil streams or reservoirs that are believed to underlie that region. If his father would consent to have his son exercise his wonderful gift for money consideration he could make a fortune in a short time. The work that he has so far done in the dry and semi-arid region of west Texas in locating water for stock men has been largely through friendship which his father has toward the stock men, and he has refused some large offers of money from those for whom he located water.

The American branch of the society for physical research, of Boston, is deeply interested in the boy's remarkable power, and Mr. Garner has received letters from Richard Hodgson, the secretary of the society, asking whether there is any one in Uvalde or that vicinity with a scientific training who would be willing and might be allowed the opportunity to make a series of experiments with the boy's X-ray sight for the benefit of his society. The abnormal vision possessed by Guy Fenley, in this new century, is not unlike that possessed by the ancient "Zhoris" of Spain. His X-ray sight is the more remarkable, however, in that he cannot see into the depth of the earth except at night. His vision during the day is not extraordinary. He can see no farther than the average boy or man whose eyes have been trained on the plains of west Texas. A complete darkness comes over his sight when he can see through solid substances. He says that when riding a horse at night he can look through the animal's body and see into the depth of the earth far below.

**The Mother's Favorite.**  
Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Richard Gibson, druggist.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Palm in liquid form which will be known as Ely's liquid Cream Palm. Price, including the spray tube, is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Palm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren Street, New York.

Recent experiments show that all classes of foods may be completely digested by a preparation called Kodo Dyspepsia cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion and it always gives instant relief.
